

# **Basaveshwar Engineering College (Autonomous), Bagalkot**

## **Department of Computer Applications (MCA)**

### **Program Outcomes**

- PO-I Giving knowledge of theoretical and applied computer science.
- PO-II To develop problem solving and programming abilities.
- PO-III To apply the knowledge of database management.
- PO-IV To expose the students for machine architectures and various system software.
- PO-V To teach software architectures and related programming languages.
- PO-VI To provide basic practical and theoretical knowledge relating to networks specifically communication models, protocols and security.
- PO-VII To apply the knowledge of mathematics for problem solving.
- PO-VIII To develop managerial and leadership qualities and skills.
- PO-IX To bring awareness of various system development paradigms.
- PO-X To utilize standard programming features to solve business problems.
- PO-XI To define, assess and tailor software quality practices and software processes and methodologies.
- PO-XII To expose the students for web and Internet programming through hands-on application development.
