Department: Electrical and Electronics

Alumni Name: **Hanamanthgouda F. Ronad**

Testimonial:

My sincerest gratitude and thanks to all staff of Dept. Electrical & Electronics Engineering, BEC for providing me an opportunity and environment to learn, explore and thought process of innovation.

Curriculum was challenged to discover individual capabilities, learn disciplined approach and sincerity to achieve the goals. I gained both technical skills and thoughtfulness for quantitative approaches to resolve challenges.

Out of college, I was confident and prepared to embrace work culture and evolving global technical challenges. I was rooted passion to explore opportunity; on campus selection provided me opportunity to be part of semiconductor industry.

Currently I am working as a mixed signal design verification engineer at Texas Instruments Inc. Dallas, Texas. Throughout my 15 years of professional carrier, experience and learning from college ensured me to achieve my carrier goals.

Achievements-applauds, opportunities-thoughts, this is what I gained from BEC. BEC gave me a platform that I will cherish always. Someday I won and some days I learned. BEC always held my back, from inspiring words of our Principal Sir to petty sweet scolding of our beloved teachers, my life in BEC was and will be the best experience. I can ever get from my life. This college let us fall by our own but made us climb on the ladder to success.

Testimonial:

Being an Alumni of this college, I felt obliged to write my experience at the college. I had been there for four years, in this span of time this college nourished and fostered us to tackle the challenges. Since the commencement of our classes, the faculty members had more emphasis on the practical knowledge rather on theory. After every session, there used to be an activity on the delivered topics. This activity was not only clearing our concepts but also helping the less concentration student's to grasp the topic easily and get the pace and move in tandem with other classmates. The conviction of college management is to provide the students the knowledge of real working world, for which the management are providing different opportunities to students to take part in different activities like Conclaves, Conferences, Cultural programs and Inter college activities regularly.

I am working as a Technical Manager, and profoundly would like to share that “Genesis” is an important word and I must say BEC is one place where it all started for me. Graduation was just a certificate but journey that made us capable of going that one extra mile can’t be summarized in few words, Apart from lecture rooms, labs or any level infrastructure we could ask for, our mentors and BEC’s vision to enable its student with industry level capabilities made the difference. It’s been years since I am working for an industry where knowledge and discipline towards profession is an essence. I extend my heartfelt thanks to my alma-mater and mentors for their selfless efforts.
