

Intel Intelligent Systems Laboratory

In charge : Mr. Ajay Katageri

An exclusive lab is set up in association with INTEL to carry out innovative projects under the MoU on 16.11.2013. INTEL® Intelligent Systems Lab has been setup to enhance students' employability skills in order to bridge the gap between industry and academia. Lab systems are equipped with Hardware/Linux os tool Suite (Intel Atom processor board with peripherals) The lab consists of 20 atom processor kits.UG/PG/PhD students are utilizing the lab facilities to do the course assignments and project works
